

## **SPINE SURGERY ABROAD GUIDE**

### **1. SPINE SURGERY – ADVANCED IN INDIA**

Spine Surgery has been developed as a super specialization from the medical branches of Neuro surgery and Orthopedics. India boasts of few of the most experienced spine surgeons in Asia. They have extensive work experience in USA / Europe and have rich experience in complex and re do cases in India. Most modern equipments are available at JCI / internationally accredited hospitals for conventional / minimally invasive spine surgery.

### **2. WHY TO TRAVEL TO INDIA FOR SPINE SURGERY**

With the advanced level of spine surgery offered at modern hospitals and prices so affordable and your end to end facilitation by We Care at all partner hospital cities in India, your choice is simplified.

### **3. WHAT ARE THE SKILL LEVELS OF SPINE SURGEONS IN INDIA?**

Due to Spine surgery emerging as a separate branch of medicine, we have surgeons specializing in the surgery of spine. The surgeons are trained in spine surgery in the USA / Europe and keep updating their skills regularly. The skills are enhanced as large number of cases undertaken due to large population.

### **4. ARE HOSPITAL FACILITIES IN INDIA OF WORLD STANDARD?**

We partner hospitals based on stringent criteria. Medical Ethics, experienced doctors, rooms, hospitality and Nursing care are thoroughly checked before approving the hospital. Now Indian hospitals have also been accredited with international accreditations like JCI / ISO etc. ensuring adherence to international medical standards.

### **5. SAFE, PRIVATE AND IMMEDIATE –ACCORDING TO YOUR SCHEDULE**

The spine surgery offered is completely private and safe. Success rates of Indian spine surgeons match and mostly exceed the best in the world. The surgery is available immediately according to your time schedule.

### **6. HOW AFFORDABLE IS IT (PRICE LIST)**

Spine surgery is very affordable in India. The prices are offered for individual medical condition as per the medical reports. On a whole the prices are approximately 1/5<sup>th</sup> of prevailing prices in USA / Europe.

### **7. RECOVERY AFTER SPINE SURGERY**

Most of patients experience remarkable recovery immediately after the spine surgery. Our surgeons challenge to make the patient walk with in 3-4 days of operation and return back with in a week to your home.

### **8. RE DO SPINE SURGERY**

Our spine surgeons have performed complex re do cases of spine surgeries with excellent success rates.

### **9. FINAL BILL VERSUS MEDICAL QUOTE**

While all care is taken by the service provider in providing you the medical quote, it is based on the medical reports and information given by you. It can change in two circumstances. 1. On your arrival the treating doctor will examine you personally. If he finds your condition different / advanced he may advise for a different course of treatment. 2. While you are being treated, if the treatment needs to be extended or altered. On any circumstance your consent will be taken prior to taking any action.

#### **10. TRAVELLING BACK AFTER SPINE SURGERY**

Most of the spine patients recover within days of surgery. In 95 % of the case you will travel back within a week of your spine surgery.

#### **11. COMMUNICATION WITH SURGEON AFTER RETURNING BACK OF PATIENT IN PATIENT AND LOCAL PHYSICIAN**

Yes, You as well as your physician can contact the treating doctor / surgeon before the treatment as well as after your return home for post treatment / surgery follow up. We Care will connect both the parties through tele conference at their convenient time.
